# About Us

We value innovation in healthcare using the latest technology combined with human and artificial intelligence to deliver smart and efficient healthcare solutions at the doorsteps of our consumers (patients, healthcare providers and payers).

NextGenGP is a service provided as (Platform as a service) to our clients such as individual GP surgeries, Alliances and Clinical Commissioning Groups and other healthcare providers.

NextGenGP provides a multi-tier service platform with services including:

- Intelligent Triage with signposting
- Video calling services
- Send triage results with signposting and probable matches to your GP for quick consultation (better matched than any other eConsultation)
- Prescription routing
- Repeat prescription delivery service (through our CQC approved partner service)
- Referrals and sick notes
- Patient data analytics (in Tableau or equivalent)

**MiA (intelligent symptom checker)** is registered as a Class I Medical device with Medicines and Health Regulatory Authority (MHRA). MiA's intelligent algorithms are able to provide safe signposting and probability matching of more than 90% accuracy in less than 2.5 minutes.

## Vision

Our vision is to see ourselves at the forefront of the market for innovative healthcare solutions by implementing the latest advancements in cognitive computing as we strive to realize the goal for a healthier and thriving community.

## Values

- Patient safety and well-being
- Respect for all
- Quality by Design
- Data Integrity
- Innovative approach

## CEO's commitment

"TO COMBINE HUMAN AND TECHNOLOGICAL INTELLIGENCE IN ORDER TO **PROVIDE IMPROVED AND BETTER HEALTHCARE SOLUTIONS TO PATIENTS AND PAYERS**"

## Services

### A.I Based Triage

Our unique algorithms are powered by human and machine intelligence backed up by more than 22,000 symptoms and over 400 conditions. The triage time is approximately less than 2.5 minutes (on an average).

### Video Calling

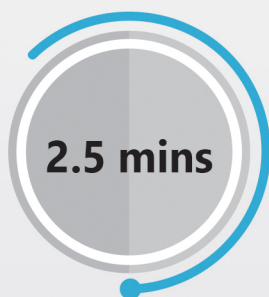

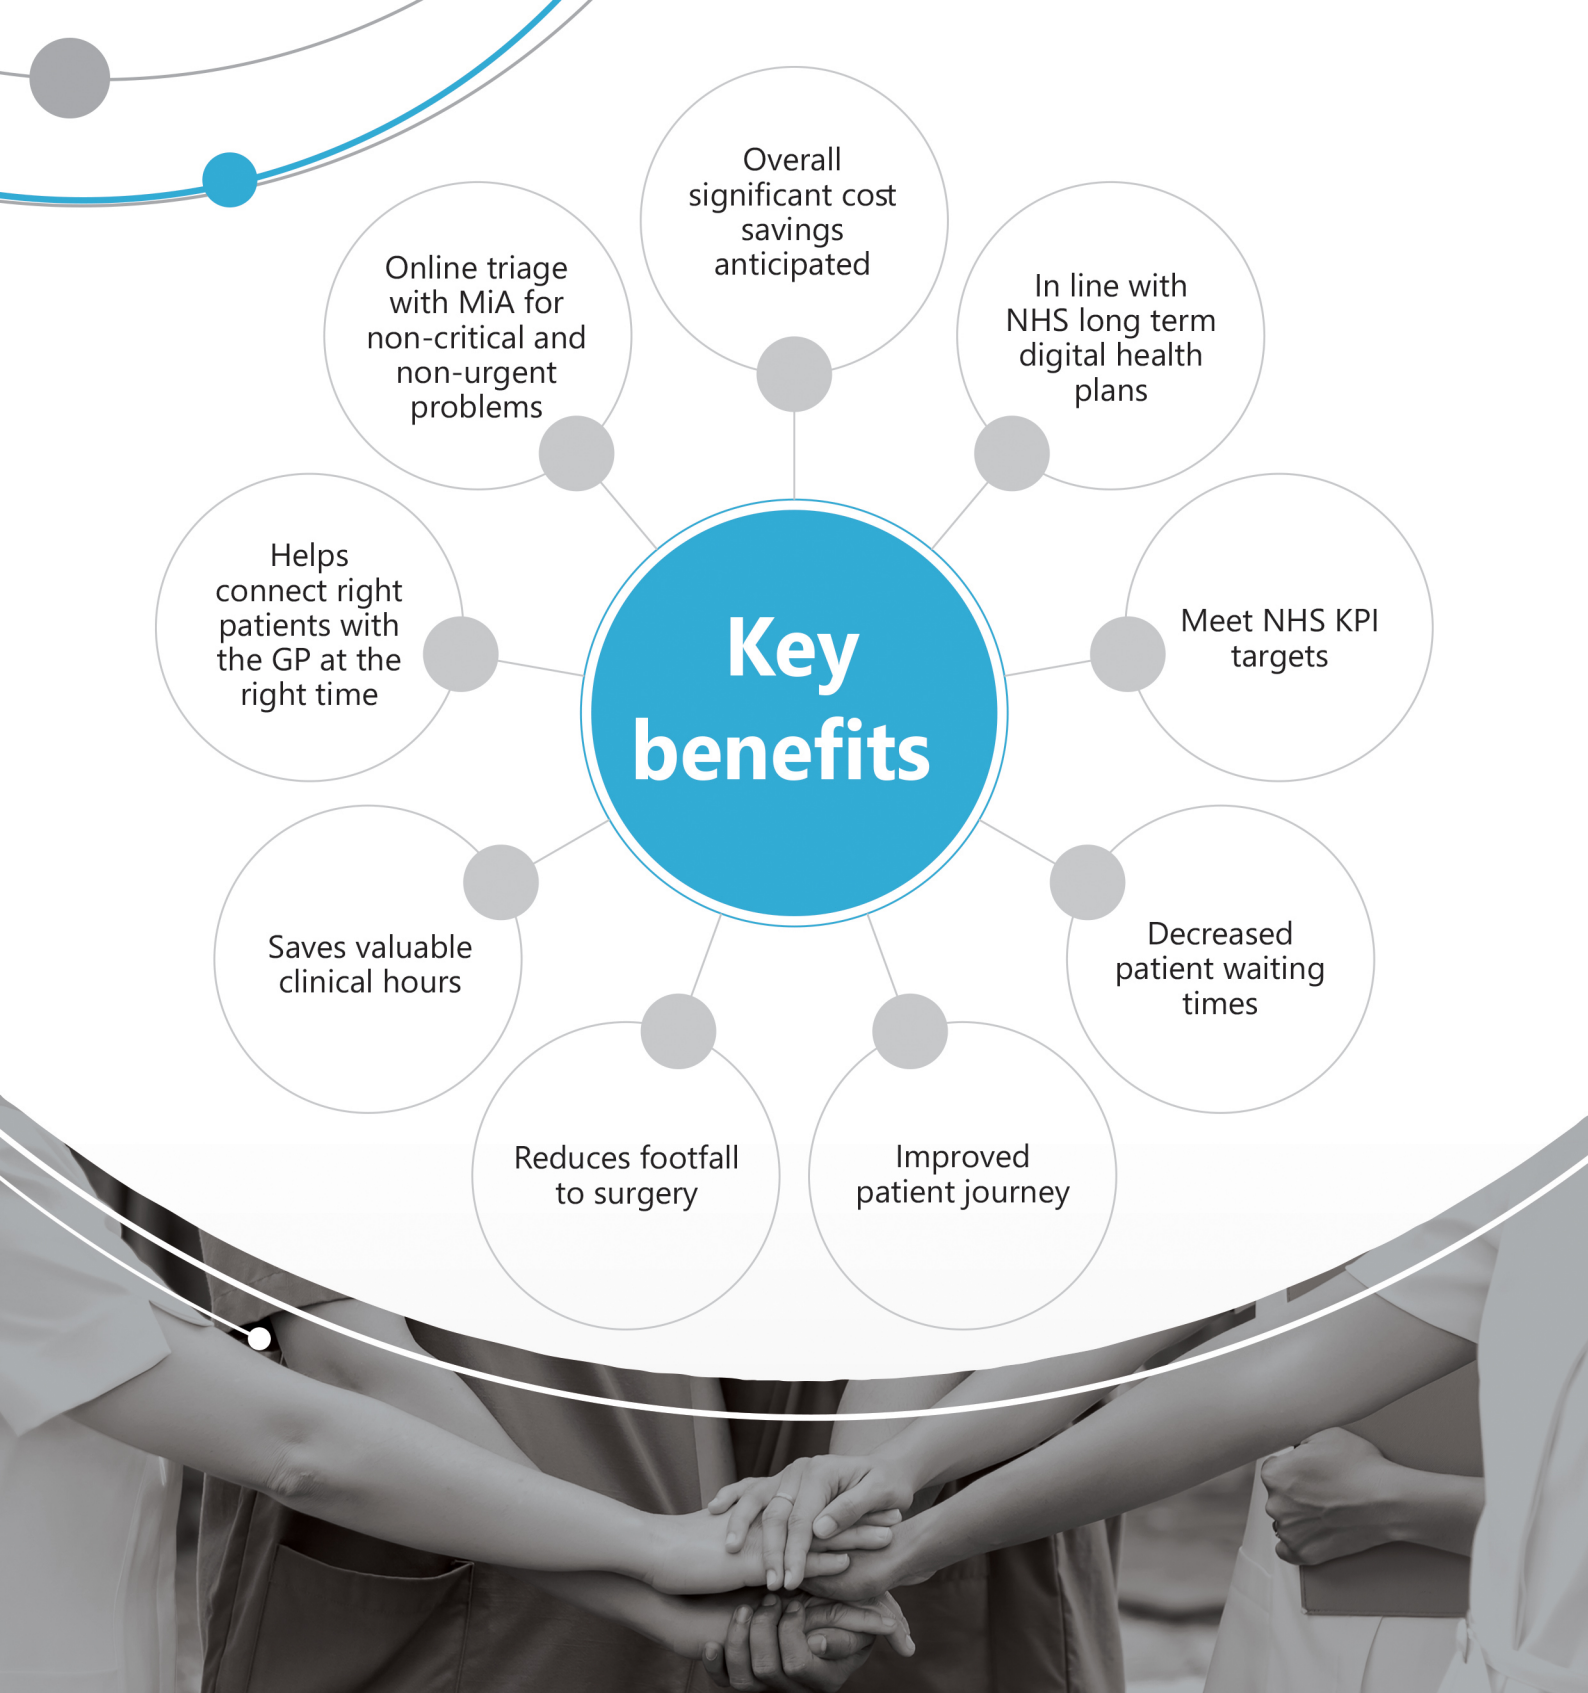

We offer video calling services that are second to none in quality and service. Our video calling platform is fully encrypted and offers video call recording as well as archiving.

### Prescription Service

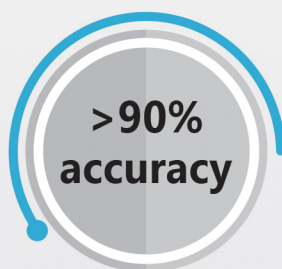

We offer online prescription services that include delivery of the script to the nearest or designated patient's pharmacy as well as prescription dispensed and **delivered to home address at no extra cost.**

### eNotifications

We are able to offer Patient 2 GP communication. Patients can either send a notification to their GP directly or send their triage results from MiA to the GP via eNotifications.
